

Maximilian Bauer

Full Stack Web Developer

East Lansing, MI 48823 • maxbauerw@gmail.com • +1 (517) 802-1485 • maxbauerw.com • in/mw-bauer

PROFESSIONAL OVERVIEW

Dynamic professional with a proven track record working with individual clients and large companies. Excels in modern web development, data analysis and team leadership, with a particular strength in mentoring and driving performance improvements through teamwork and attention to detail. Thrives in high demand work environments, harnessing a strong drive to succeed to foster collaboration and achieve operational excellence.

PROFESSIONAL EXPERIENCE

FULL STACK WEB DEVELOPER

Lansing, MI and Detroit, MI

Freelance

2023-Present

- Developed custom web applications and websites for small businesses and non-profits using modern JavaScript frameworks including React and Node.js
- Collaborated directly with clients to gather requirements, provide technical consultation, and deliver solutions that meet their specific business needs
- Implemented responsive design principles and API integrations to create dynamic, user-friendly web experiences
- Managed full project lifecycle from initial planning and development through deployment and ongoing maintenance

ENGINEERING OPERATION ASSOCIATE

* PROMOTED TO SENIOR ENGINEERING OPERATIONS ASSOCIATE 2023

Novi, MI

Waymo contracted through Cognizant and ICONMA

2021-2024

- Provided technical leadership to the engineering operations team by mentoring junior associates and leading performance reviews
- Delegated tasks to team members on a daily basis to ensure project efficiency and timely completion
- Prepared comprehensive weekly summaries of diverse performance indicators, driving data-informed improvements
- Analyzed internal performance metrics to identify recurring issues and operational trends, contributing to process improvements and root-cause prevention
- Developed and delivered clear, data-driven reports for software engineering teams to support incident resolution and system optimization

WEB DEV INTERN

San Francisco, CA

LadderPlayer

2014-2015

- Maintained and enhanced both frontend and backend functionality of a PHP-based website
- Designed and implemented player matchmaking systems and integrated transaction fee processing
- Collaborated in a team environment using Git for version control, including submitting pull requests and code reviews

PROJECTS

ReGroove, Personalized Spotify playlist generation tool

Project Lead | 2025

Web App for automatically generating unique playlists based on user history or artist preference. Drag and drop playlists to receive new songs from the same artists. Built using React and TypeScript. Fully integrated with Spotify API.

Full Stack Website Deployment

www.maxbauerw.com | elff.com | 2024

Built and launched fully functional websites for nonprofits and small businesses, featuring clean, responsive UI/UX, integrated APIs for authentication and donations, and direct email messaging capabilities.

The Impact of Economic Growth on Population Change

Full data analytic study of population change relative to economic growth for all CBSAs in the United States. Study covers the period between 2000-2020. Data sourced directly from official government databases, including Bureau of Economic Analysis and the Census Bureau. Data cleaned and organized using MySQL and visualized using Tableau and R.
